WYOMING DOWNS

HISTORICAL RACING

Historic Horse Racing is an electronic pari-mutuel game which allows players to wager on historic horse races — combining the **thrills of video gaming** with the **excitement of horse racing**. The Historical Racing games at Wyoming Downs are easy to play and this guide will get you started.

1 SELECT YOUR GAME & DENOMINATION.

There are several games to choose from at all of the Wyoming Downs locations. The games are offered at different denominations: 5 cents, 25 cents and \$1.

2 INSERT YOUR WYOMING DOWNS WINNERS CIRCLE CARD

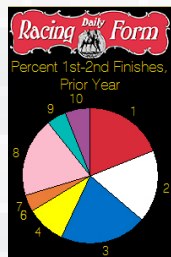

Make sure to insert your player's card every time you play to earn points toward valuable rewards like Free Play. Your player's card makes you eligible for special events, promotions and free play coupons.

3 CHOOSE YOUR WAGERS.

Decide how many lines on the game you want to play and the number of credits per line you want to wager. Always remember that when you choose maximum credits per line, you'll be eligible for more winnings and bigger jackpots.

4 MAKE YOUR SELECTIONS.

Each Historical Racing game is based on historic races with 10-horse fields. You can use your handicapping skills with the available data on screen to select your three horses — or you can let the system make the choices for you by selecting the "Handi Helper" button. "Handi Helper" increases your chances of hitting the horse race.

5 PRESS START.

And the race is on! If your picks finish the race in the correct order and match up with other winning symbols, you're a winner. The game screen will display the winning combinations and the amount you have won — and you can use the Help screen for additional ways-to-win information. Your winnings will be credited to your balance on the game.

6 THERE'S A BONUS!

Some games have a bonus round. If you qualify for a bonus round, the game will take you to a special screen and will display instructions on how to play.

7 JACKPOTS!

Historical Racing features jackpots that can range from hundreds of dollars into the thousands. A large red box will display on the screen when you win a Jackpot. You should immediately call an attendant for assistance.

8 CASHING OUT.

When you are finished playing a game, select the Cash Out button and your balance from that game will be printed on a voucher. Vouchers can be redeemed for cash at the Cashier window or can be replayed at another Historical Racing game.
