Wyoming bred horses are the only horses that qualify for points awarded by the Wyoming Breeders Program and administered by the Wyoming Pari-Mutuel Commission. Points are accumulated annually throughout the race season according to a horse's placement in each of the races it runs during that season.

Funds for the award program result from Wyoming's wagering events, including simulcast, live wagering, advanced deposit wagering and the Historic Racing industry. According to state legislation these wagering events contribute a percentage of annual earnings to Wyoming Horsemen programs.

The development of the Wyoming Bred Awards Program and its value to Wyoming breeders can be tracked by the growth in the sizes of the cumulative awards:

2013 \$ 46,728.65

2014 \$ 509,878.16
